Assignment
Wireframing

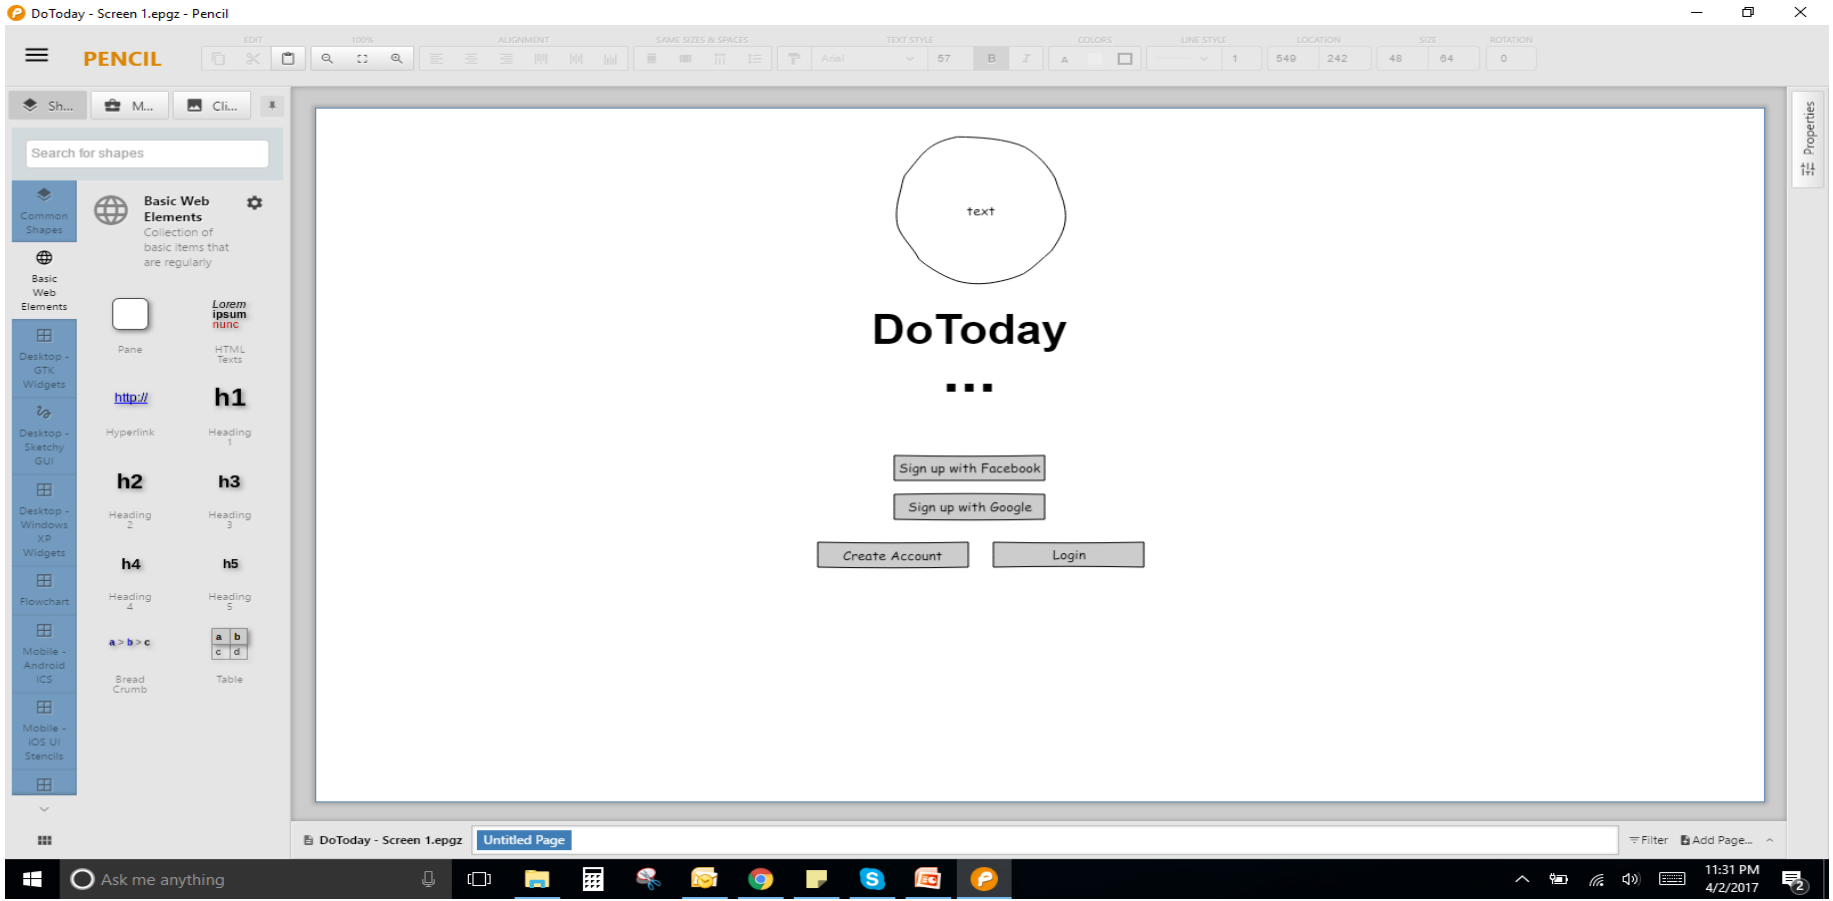
Name: Gauri Mathur
Email ID: mathurgauri91@gmail.com

Assignment Instructions

Problem statement: In the previous session on 'Introduction to Prototyping', you developed paper prototypes for DoToday, a startup working on a next-gen to-do list and task management app. Suppose the app, based on those paper prototypes, was launched and received a huge response from users. But feedback was also received that a web version of the app is needed. As the PM, you have decided to develop the web version based on the current mobile version. So you need to develop wireframes for the layout of your web app.

1. Create the required wireframes and place the screenshot of each screen on relevant slides
2. Prepare a slide showing the navigational flow for your wireframes

Screen No. 1



DoToday - Screen 1.epgz - Pencil
PENCIL
Search for shapes
Common Shapes
Basic Web Elements
Desktop - GTK Widgets
Desktop - Sketchy GUI
Desktop - Windows XP Widgets
Flowchart
Mobile - Android ICS
Mobile - iOS UI Stencils
Basic Web Elements
Collection of basic items that are regularly
Pane
